PROFESSIONAL EXPERIENCE

WordPress Developer | iSpark IT Services Pvt. Ltd. | March 2023 - Present

- Engineered and maintained custom WordPress and Shopify websites for 10+ domestic and international clients, consistently delivering projects on schedule and within scope.
- Developed custom WordPress plugins and themes from scratch using object-oriented PHP, PSR-4 autoloading, and REST API layers for scalable, maintainable codebases.
- Built and customized WooCommerce solutions, including third-party REST API integrations and payment gateway workflows using Razorpay and Stripe.
- Built Shopify storefronts using Liquid templating, custom theme sections, and app integrations.
- Diagnosed and resolved production performance bottlenecks through caching configuration, image optimization, and script deferral, reducing average page load times by approximately 30%.
- Implemented on-page SEO improvements including structured data, metadata optimization, and Core Web Vitals work that contributed to Page 1 Google rankings for targeted keywords across applicable client websites.
- Used Google Analytics and Search Console to deliver performance reports and actionable UX recommendations.
- Designed and deployed responsive marketing landing pages with conversion-rate optimization techniques to support lead generation.
- Collaborated with UI/UX designers, QA engineers, and project managers in Agile environments to deliver production-quality web projects.

WordPress Developer — Intern | iSpark IT Services Pvt. Ltd. | January 2023 - March 2023

- Completed professional training in WordPress, modern PHP, and full-stack web technologies before transitioning to a production developer role.
- Built responsive websites using HTML5, CSS3, Bootstrap, JavaScript, PHP, and WordPress while contributing to live client projects.
- Assisted with theme customization, plugin configuration, site testing, deployment, post-launch maintenance, and website auditing.

Java Developer — Intern | Xipra Technology Pvt. Ltd. | October 2019 - April 2020

- Contributed to Java desktop application development using Java and MySQL, with additional exposure to C++ feature implementation.

- Worked with SDLC and Agile methodologies under senior developer mentorship.

SELECTED PROJECT EXPERIENCE

Custom WordPress Plugin Development

Developed custom WordPress plugins for business-specific functionality using PHP, object-oriented architecture, REST APIs, WordPress APIs, and maintainable modular code structures.

WooCommerce & Payment Integrations

Developed and customized WooCommerce functionality and integrated external services and payment gateways to support transactional workflows.

Shopify Storefront Development

Built and customized Shopify storefronts using Liquid, custom theme sections, and application integrations for eCommerce clients.

Website Performance Optimization

Diagnosed production performance bottlenecks and implemented caching, image optimization, script deferral, and Core Web Vitals improvements.
